CSWC Operational Period Summary

0600 November 30 2017 to 1800 November 30 2017

Bodie State Historic Park is a ghost town in the Bodie Hills east of the Sierra Nevada mountain range in Mono County, about 75 miles southeast of Lake Tahoe. It became a boom town in 1876 and following years, after the discovery of a profitable line of gold, and suddenly attracted several thousand residents.

State Activation Level Change

Effective Thursday, 11/30/17, the State Operations Center has transitioned to a new activation level sequence.

In accordance with the 2017 edition of the State of California Emergency Plan (SEP) published on 10/01/17, Cal OES has changed our State Activation Level sequence to align with the Federal Emergency Management Agency (FEMA) and many of our local partners. The new Activation Levels apply to the State Operation Center and the Inland, Coastal and Southern Regional Operations Centers.

| Activation Level | Conditions / Definition |
|------------------------------|--|
| Level 1 | <ul style="list-style-type: none"> Catastrophic disaster, which requires comprehensive state-level response and/or assistance |
| Level 2 | <ul style="list-style-type: none"> Large-scale disaster, requiring high amount of state involvement |
| Level 3 | <ul style="list-style-type: none"> Small to Moderate Disaster/Pre-Planned Event |
| Normal Operations/Monitoring | <ul style="list-style-type: none"> Duty Officer Status Steady-state operations Warning Center maintains situational awareness |

SITUATION SUMMARY

Cal OES EMAC Missions

2017-SOC-43430: Cal OES Individual Assistance (IA) Branch requested two (2) IA Coordinators in support of the 2017 October Statewide Fire Recovery efforts.

- Two (2) IA Coordinators from the State of Washington will provide support in a Joint Field Office, Local Assistance Center, or in the field as needed.
- Both IA Coordinators are scheduled to provide support from 11/27/17 – 12/23/17.

SITUATION SUMMARY

Hepatitis A Virus (HAV) Outbreak

On 10/13/17, Governor Edmund G. Brown Jr. issued an emergency proclamation that allows the state to increase its supply of hepatitis A vaccines in order to control the current outbreak. Immunizations from the federal vaccine program have been distributed to at-risk populations in affected areas, but additional supplies are needed. This proclamation allows California Department of Public Health (CDPH) the authority to immediately purchase vaccines directly from manufacturers and distribute them to impacted communities.

The MHCC remains activated in response to a large HAV outbreak in California. The majority of patients in this outbreak report being homeless and/or using illicit drugs. The outbreak is being spread person-to-person and through contact with an environment contaminated by human feces. The primary strategies for outbreak control are vaccination and improving access to sanitation. The Centers for Disease Control and Prevention (CDC) notes that person-to-person transmission through close contact is the primary way people get HAV in the United States.

Los Angeles, San Diego and Santa Cruz Counties have declared local outbreak status. Outbreak associated cases have been confirmed in other California jurisdictions.

See attachment for full report.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

A weak front will bring light rain to far NW CA late today and tonight. The remainder of the region will be partly cloudy to mostly clear with light S-W winds and above normal temperatures. Friday will be dry across the region with light winds, variable high cloudiness and warmer than normal temperatures.

The next Pacific storm system will push rain onshore in the far north Saturday morning. By mid afternoon light rain will reach many locations north of a line from Santa Rosa to Truckee. Gusty S-SW winds will develop in many areas. Peak gusts in high elevation and east side wind-prone locations Saturday afternoon could reach 30-40 mph and locally higher. Showers will continue mainly in the mountains Saturday night through midday Sunday.

Snow levels will begin to drop Saturday afternoon, and by Sunday morning they will be 2500 ft in the north and 4500 ft in the south. Rainfall equivalent totals will only be 0.25-1.00 inches in the NW mountains, 0.10-0.50 inches elsewhere in the mountains, and trace amounts to 0.20 inches in valleys. Some areas east of the Cascade-Sierra crest, south of the line from Santa Rosa to Truckee, and in the central and southern Sacramento Valley will not receive any precipitation at all from this system.

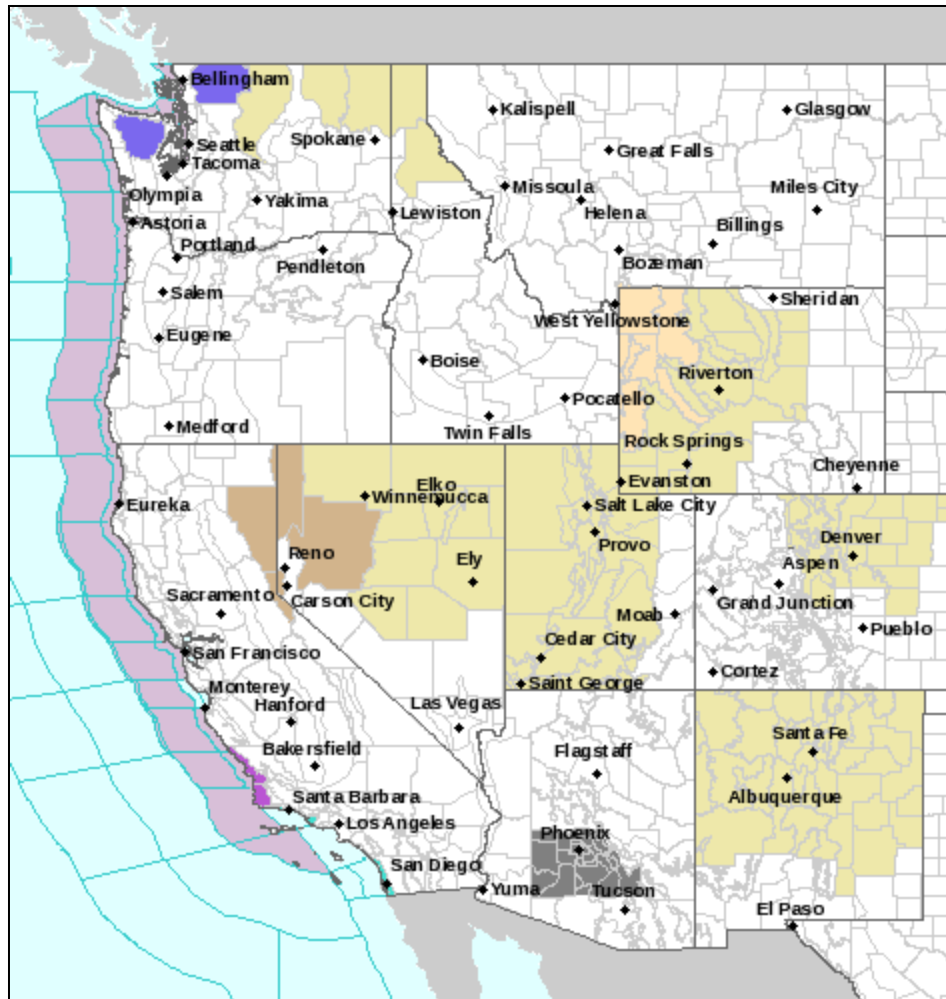

By Sunday afternoon a dry NW-NE surface wind pattern will develop. Northerly winds may gust to 25-35 mph in wind-prone locations Monday morning from the western Sierra slopes to the coastal mountains. Dry conditions with mainly night and morning N-NE winds and a gradual warming trend can then be expected for the next week or so.

SOUTHERN CALIFORNIA

Possible very strong offshore winds across Southern California Monday and Tuesday of next week

A weak ridge of high pressure over Central and Southern California will cause temperatures to remain 5 to 10 degrees above normal through Saturday, with 50s to low 60s across the mountains, 60s to low 70s in the Central California Valleys, and 70s to low 80s in the Southern California Valleys. Minimum humidity will be mainly in the teens away from the Central Valley and its surrounding foothills today as weak offshore flow continues. Minimum humidity will rise to above 20% across the area Friday and Saturday as winds become weak southerly. A Pacific trough will cool temperatures to near normal Sunday and Monday. This trough now looks dry since it will move inland over the Pacific Northwest and then drop into the Great Basin. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas on Sunday. At this time, it looks as though there will be very strong offshore winds across Southern California Monday and Tuesday as the back side of the trough moves through and a strong ridge of high pressure approaches the coast from the Pacific. The strong ridge of high pressure will bring significant warming to the region Tuesday through Thursday of next week. Minimum humidity across Southern California will be mainly in the teens Monday and then drop into the single digits Tuesday through Thursday.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2017-LAW-43342, 11/24/17:** San Bernardino County Sheriff, on behalf of Ontario Police Department is requesting search and rescue (SAR) resources to assist in a search for a homicide victim in Riverside County. Both San Bernardino and Riverside County SAR assisted in the search on 11/29/17. **Mission Closed**

Cal OES MISSION TASKING

Cal OES Missions

- **2017-Inland-37776:** Two Air Monitors for Mariposa County (On Scene)
- **2017-Coastal-37716:** One Air Monitor for Humboldt County (On Scene)
- **2017-SOC-38645:** One California Department of Transportation Archeologist to support the Joint Field Office (JFO) from 11/13/17 to 11/28/17. In coordination with a Cal OES Senior Environmental Planner, the Associate State Archeologist will review Disaster Damage Descriptions for potential California Historical Resources Information System (CHRIS) requests and request CHRIS reports when necessary.
- **2017-SOC-41344:** Individual Assistance (IA) request for cache phones for each lead for the LACs/DRCs for the Governors Office to contact them
- **2017-IREOC-38682:** DTSC Hazardous Waste Task Force (Helena Fire)
- **2017-IREOC-38683:** CalRecycle Debris Management Task Force (Helena Fire)
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.
- **2017-Cal OES-38400:** One Air Quality E-BAM modem for Klamath (Del Norte OA)
- **2017-Cal OES-39160:** Communications Support for the Helena Fire, Trinity County
- **2017-Cal OES-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
